Note: Districts with class sizes fewer than 10 are not included in the maps. Additionally, classes that participate in whole grade sharing with another district are shown in the district that they attend. Storm Lake Community School District's four-year graduation rate (60.4%) is a low-end outlier due to the district's charter high school, which includes an intentional fifth year for many students. The district's most recent five-year graduation rate is 92.4%.
